

# SWIFT

## INDUSTRIAL

*Propeling Africa's industrial, retail, and DIY revolution  
by formulating the highest quality lubricant and  
cleaning solutions at the most competitive price.*

[www.swifts.co.za](http://www.swifts.co.za)

**Swift is a leading specialist in the manufacturing of lubricants, greases, aerosols, and cleaning products. Our core strength lies in our capability to formulate and engineer bespoke lubricant solutions. Additionally, we take pride in our commitment to ethical manufacturing practices, particularly in terms of human resource management and the handling of hazardous chemicals.**

**With over 45 years of manufacturing experience under our belt, today we:**

- Are ISO certified.
  - Are 1 of 2 privately owned grease manufacturers.
  - Have over 2500 locally manufactured SKU's.
  - Own all our IP and locally manufacture all our products.
  - Have capacity to manufacture over 3000 tons of grease annually.
  - Have capacity to blend over 8000 tons of lubricating oil annually.
  - Export to over 8 countries across the globe.
  - Manufacture over 700,000 aerosols and 1,500,000 litres of degreaser annually.
  - Employ over 65 South Africans.
  - Have over 4000m<sup>2</sup> of manufacturing space in Johannesburg, Gauteng and Pinetown, KZN.
  - All our lubricants meet and or exceed the latest API and ACEA lubricant specifications.
- 

## VISION

To propel Africa's industrial, retail, and DIY revolution by formulating the highest quality lubricant and cleaning solutions at the most competitive price.

## MISSION

To be South Africa's leading lubricant and cleaning solutions provider, developing local formulations at the highest standards, with competitive pricing and excellent customer service.

## VALUES

**Innovative:** Our insatiable appetite to solve problems and develop the very best formulations produces excellent products and results for our clients.

**Reliable:** We prioritize the needs of our clients and pride ourselves on meeting and exceeding customer expectations.

**Experienced:** We are inspired by our heritage and experience of the industry, continually striving to offer excellent products at competitive pricing.

**Agile:** Our inquiring mindset and nimble structure allows us to create high performance, specialised products.

## Industries we Serve:

Swift offers a diverse range of lubricants and cleaning products for industries such as industrial, mining, marine, automotive, agricultural, construction, welding and fabrication, rail, aviation. We also manufacture small-pack retail geared product lines aimed at automotive and motorbike spares shops, cycle shops and DIY homecare retail outlets

## Our Products Include:

**Automotive Oils:** Engine, gear and hydraulic

**Motorbike care products:** cleaners and lubricants

**Processing Oils:** Gear, transfer, hydraulic, turbine and transformer

**Small pack retail greases and lubes:** wheel bearing, CV joint, red rubber, silicone, and assembly greases

**Specialised processing fluids:** Silicone, non-flammable and methylphenyl

**Electronic Cleaners and greases:** contact greases, non-flammable, and plastic friendly solvents

**Greases:** lithium, lithium complex, calcium, aluminium, calcium sulfonate and polyurea

**Metal working fluids:** neat cutting oils and soluble oils

**Anti-Seize Compounds:** copper, aluminium, nickel, moly-based assembly pastes and non-metallic anti-seizes

**Anti-Corrosion products:** waxes, oils, and resins

**Chain oils and lubes**

**Brake Fluids**

**Dry Bonded Lubricants**

**Engine Coolants:** premix glycols

**Degreasers and Cleaners:** Water-based, solvent, and eco-solvent

**Herschell Professional:** range of consumables targeting the DIY, tradesman, and handyman

**Car care products:** cleaners, polishes, and waxes

**Herschell Industrial:** range of consumables targeting engineers and artisans.

**Bicycle care products:** cleaners and lubricants

## Directors

Our company proudly maintains 51% black ownership, reflecting our commitment to diversity and inclusion in our business practices.

**Thokozane Kgame**  
Chairman

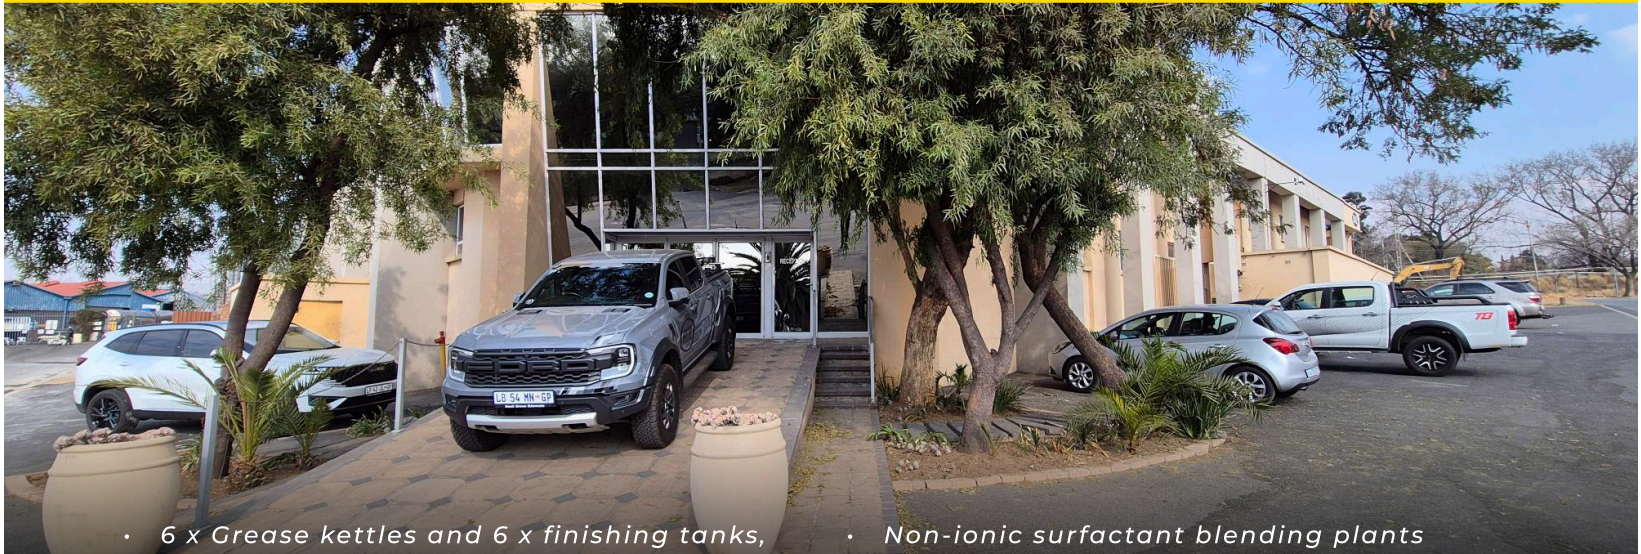

**Grant Gillespie**  
Managing Director

**Ian Ireland**  
Financial Director

## Manufacturing plant capacities

- 6 x Grease kettles and 6 x finishing tanks, ensuring multiple grease variants at any given time
- Oil blending tanks totalling 20,000l, made up of multiple tanks to ensure multiple oil variants at any given time
- Anionic surfactant blending plants totalling 4,000l
- Non-ionic surfactant blending plants totalling 15,000l
- 2 x automated aerosol plants with 25,000l propellant storage
- 1 x grease cutting plant
- Several stainless-steel high shear mixing plants
